

THE DRAUGHT
BLACK-DRAUGHT
THE ORIGINAL
LIVER MEDICINE

A yellow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney disease. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Draught of Black-Draught never fails to benefit diseased liver and weakened kidneys. It strikes upon the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Draught of Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Draught of Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Mullins, S. C., March 10, 1901.
I have used The Draught of Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is in the market for liver and kidney troubles and dyspepsia and other complaints.

Rev. A. G. LEWIS.

Jerusalem at St. Louis.
St. Louis, Mo., Dec.—Mrs. Lydia von Flakelstein Mountford, the celebrated lecturer on Jerusalem and the Holy Land, has been engaged to personally superintend the great Jerusalem exhibit which is to be the chief novelty of the Louisiana Purchase Exposition.

As has already been announced the City of Jerusalem is to be reproduced at the World's Fair, ten acres of space in the heart of the grounds having been allotted to this purpose. No other person in the world is so well qualified the various features of interest to pilgrims to Jerusalem as Mrs. Mountford. She was born of Russian parents in the City of Jerusalem, and after completing her education in England returned to Jerusalem and has made her home there ever since, except when out upon her lecture tours. These lectures of hers, illustrated by actual residents of the Holy City clad in native costume, have a world-wide reputation. It has been the dream of her life to be able to give these lectures in America having for her illustrations a reproduction of the City of Jerusalem. The great World's Fair of 1904 will furnish the opportunity. A special auditorium will be erected in this new Jerusalem for the delivering of these lectures, following which all may see Jerusalem as it really exists.

Mrs. Mountford explains that those who visit the Jerusalem production at St. Louis will really get a better view of everything in Jerusalem worth seeing than would by visiting the city, because it is impossible for a Christian to see what is going on in the Mohammedan places of worship.

Rev. Dr. J. W. Lee, well known as a traveller and writer about the Holy Land, has been engaged by the Jerusalem Exhibit Company to prepare a guide book for New Jerusalem, which shall give all the information that pilgrims will desire to make them thoroughly familiar with the reproduced city.

No exhibit so far planned for the great St. Louis Fair—and there are hundreds of them—has attracted anywhere near the interest in St. Louis as has this, Jerusalem is unquestionably the best advertised city in the world, and no one who visits the World's Fair will miss visiting it at least once, while many will doubtless visit it several times to see the various processions that will form a great feature of the exhibit.

Venezuela and Its People.
Venezuela is about eight times the size of Missouri. It has a coast line of 780 miles. The Orinoco, Apure, Mota, Caura Negro and Guario are the principal rivers, all being navigable for big steamers. The Orinoco, to which all others are tributary, is navigable to the rapids of Atures, 850 miles from the ocean. Six hundred miles from its mouth it is three miles wide. The people are not noted for industry, and the country does not develop rapidly.

Its government is planned on the lines of the United States. The republic is composed of the States of Miranda, Guayana, Bermudez, Zamora, Lara, Los Andes, Falcon, Bolivar, a federal district, territories and colonies. The legislative power is vested in a Senate and House of Delegates, the two houses being designated the Congress. The

Executive power is vested in the president, his cabinet, and a federal council, composed of a senator and a deputy in the federal district who are chosen for a term of two years by congress from its own members.

Venezuela has a large number of heavy towns. The most important being Caracas, the capital, with over 70,000 inhabitants at the census of 1891; Valencia, Maracaybo, Coro, Guayana, Maturin, Barquisimeto, Cojocel, Barinas, Zucora, Barroquis and La Guayra, with fully 60 cities of from 5,000 to 12,000 inhabitants.

Caracas, the capital, has seven miles north of the Caribbean Sea, 3018 feet above the level. The city is regularly laid out with two main streets at right angles to each other, leading to the four points of the compass, and the other all numbered as in the cities of the United States.

Miss Cockrell's Marriage.
Warrensburg Star.
A close friend of Miss Marion Cockrell has written the following about Miss Cockrell's approaching marriage: Senator Cockrell has announced the engagement of his daughter, Miss Marion Cockrell, to Mr. Edson F. Galland, of Philadelphia. The wedding will take place in Washington before Dec.

The engagement of Miss Cockrell is of the greatest interest to her friends here who have seen her develop from a wee babyhood to the queenly woman she is today. Notwithstanding the fact that so great a part of her life has been spent in Washington and abroad, the word "home" has meant to Miss Cockrell only her native town. Her winning personality, sweet simplicity and unaffected loyalty to the friends and associations of her childhood have made her Warrensburg's best beloved daughter. In Washington her social life has been exceedingly gracious manner, tact and ability have made her one of the most popular hostesses of official circles, but it has been reserved to Warrensburg to truly know the beauty of her unselfish character and the wealth of her affectionate sympathy.

Mr. Galland is a man worthy of the peerless woman he has won. He is thirty-two years old, graduated from Yale in 1893 and after three years of special study in physics at Johns Hopkins university, he received the degree of doctor of philosophy from that institution. He has been twice abroad and was for three years a professor at Yale. He is at present connected with the Cramp Ship Building company of Philadelphia.

Don't forget the old man with the fish on his back.
For nearly thirty years he has been traveling around the world, and is still traveling, bringing health and comfort wherever he goes.

To the consumptive he brings the strength and flesh he so much needs.

To all weak and sickly children he gives rich and strengthening food.

To thin and pale persons he gives new firm flesh and rich red blood.

Children who first saw the old man with the fish are now grown up and have children of their own.

He stands for Scott's Emulsion of pure cod liver oil—a delightful food and a natural tonic for children, for old folks and for all who need flesh and strength.

SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. 50c and \$1.00; all druggists.

comes to you fresh and of full strength, always in sealed, air-tight packages. Bulk coffees lose their strength, deteriorate in flavor, and also gather dirt.

Uniformity, freshness and full strength are insured to users of Lion Coffee.

Shipping Bill.
A bill of considerable importance to all cattle shippers of the country is what is known as the forty-hour bill. It is a measure which seeks to amend the present act requiring that cattle shall not be left in the cars, at terminals or stopover places, for more than twenty-five hours without being taken out and allowed to rest. This amendment would extend the time of unloading to forty hours.

It has passed the house of representatives, where Mr. Mann, of Chicago, had it in hand, and is now in a sub-committee of the committee on interstate and foreign commerce.

A TEXAS WONDER
HALL'S GREAT DISCOVERY.
One small bottle of Hall's Great Discovery cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1. One small bottle is two months' treatment, and will cure any case above mentioned. Dr. E. W. Hall, sole manufacturer, P. O. Box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists. At Crenshaw & Young's.

Neosho, Mo., July 23, 1901.—I have been for twenty years a sufferer from kidney and bladder trouble; have not been able to do any work for several years. The Texas Wonder, Hall's Great Discovery, has cured me, and now I am able to do all my work. Anyone in need of a kidney medicine will find this to be the cheapest on earth, for I have tried them all.

The Glory of Killing.
It is being currently reported that since he has been in the business the Emperor William has killed 42,676 birds. These birds never did William any injury. He did not shoot them in self-defense, nor for sustenance. The slaughtered birds would have gladdened the hearts of thousands. William did it merely to gratify the savage love of slaughter which he inherited from his barbarous ancestors.

Favorite Family Remedy.
Frequently accidents occur in the household, which cause burns, cuts, sprains and bruises; for use in such cases, Ballard's Syrup Liniment has for many years been the constant favorite family remedy. 25c, 50c and \$1.00 at Crenshaw & Young. 12-6ml

Zinc Shipments.
The shipment of zinc from Joplin this year exceeded that of last year by 9,100 tons. The average price was \$6.75 per ton higher than last year. The demand is strong and the Joplin district is more prosperous than it has been for years.

Prescribed by her Physician.
Neosho Falls, Kas., Nov. 13, 1900.
Pepsin Syrup Co., Monticello, Ill.
Dear Sirs:—For almost fifteen years I suffered from indigestion and last winter thought I would die, when my physician, Dr. A. J. Clearance, of this place, advised my trying Dr. Caldwell's Syrup Pepsin, which I did, and two bottles cured me. It not only relieved me, but it cured me so that I have not been troubled since.

If any one should offer me \$500 for the good Syrup Pepsin has done me, I would not think of taking it. No one can take your medicine without being convinced of its more than wonderful cures. I recommend it to all my friends as a laxative and stomach remedy. Yours with gratitude, 12-6ml Mrs. J. MORRAN.

Error in Date.
Not long ago it was announced in the INTELLIGENCER that Mrs. Virgie Johnson would sell at auction the remainder of her fine stock on January 9th. The date should have been January 29th.

Protective Association Resolutions.
Resolutions adopted at a meeting of the Wellington Protective Association, held in their lodge room in the city of Wellington, Lafayette county, Missouri, on the 13th day of Dec., 1902:

Whereas, reliable information has reached this organization conveying the intelligence that the case of the State of Nebraska against Goldsbury has been reversed and remanded for a new hearing, therefore be it resolved:

First—That these men have had a fair and impartial trial in their own state, by a jury of their countrymen, and were convicted of the crime of concealing and disposing of stolen property.

Second—That the sentence was just and fully established by plain and unmistakable evidence, and should be executed.

Third—That it is the duty, and this lodge feels called upon to aid in the further prosecution of the said Goldsbury.

Fourth—Be it further resolved, that this lodge will leave nothing undone that can be done towards convicting them at the coming trial, and that a certain sum be appropriated from the general fund of this order to pay any expenses that might be hereafter incurred by witnesses from this county.

General News.
The mints of Sinn have been closed to the free coinage of silver.

Confederate veterans in Virginia have started a fund for a monument at Richmond, Va., to General U. S. Grant.

Government naval prisoners will hereafter wear a uniform of plain dark gray with a round hat of the same hue.

A large delegation of German farmers will come to the United States for four of three months to study American agricultural methods.

At the Indian school at Carlisle, Pa., the enrollment of Indian students this year has reached the high-water mark of 1073. The students are encouraged to earn money by hiring out during vacation, and they made nearly \$82,000 that way last year.

The report of the committee of the house of commons of England on steamship subsidies is against the principle of granting subsidies. It finds that British ship owners have not suffered much from the fostering effects of subsidies paid by foreign governments.

Free for Asking.
